SUMMARY OF QUALIFICATIONS

JUNIOR SOFTWARE DEVELOPER

Software Development • Database Design • Data Analytics

- Second-year Software Engineering Technology student with industry experience building software that streamlines business processes
- Demonstrated skill in relational database design, Oracle SQL, and Python
- Builds interactive Power BI dashboards and consolidates REST API sources into a centralized data warehouse
- Automates repetitive work with Python; OCR scripts eliminated 200+ hours of manual data entry per year

TECHNICAL SKILLS

Programming: C#, Java, Python, XML, SQL, Oracle PL/SQL, HTML/CSS/JavaScript

Data & Reporting: Power BI, data analytics, star-schema design, data warehousing, statistical modelling

Integrations & Automation: REST APIs (QuickBooks, Salesforce, Ringba), OCR-based scripting

Other: Troubleshooting, IT infrastructure support, requirements gathering, team collaboration

EDUCATION

Ontario College Advanced Diploma in Software Engineering Technology Co-Op

Jan. 2026 - Present

Centennial College, Toronto, ON - Remote

Completion: 2028 – GPA: 4.1/4.5 (A)

- *Key Courses:* Software Systems Design | Java Programming | Advanced Database Concepts (SQL) | Software Requirements Engineering | Web Interface Design (JavaScript) | Programing 2 (C#) | Discrete Mathematics | Functions & Number Systems

ACADEMIC PROJECTS

Software Requirements Specification Document - AI-Powered Privacy Protection System (AIPPS)

- Collaborated in a team using Agile practices for the development of an SRS document for a computer program, AIPPS, that uses ML models to detect and block phishing websites
- Created functional/non-functional requirements sections, as well as use cases and interview questions

EXPERIENCE

Business Analyst

May 2024 - Aug. 2024

ConsumerGenius, Canada

- Developed interactive Power BI dashboards that improved data accessibility and supported data-driven decisions across departments
- Consolidated QuickBooks, Salesforce and Ringba REST API data into a centralized data warehouse, substantially cutting data processing time
- Automated manual data entry with Azure Document Intelligence OCR-based Python scripts, saving 200+ hours of manual work annually
- Applied statistical models to sales patterns, producing insights that supported forecasting and inventory planning

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate | Microsoft

April 2024 - Present
